NOTES:

1. ARITHMETIC DISCREPANCIES

- (3) Apparent errors in extension of unit prices will be corrected;
- (4) Apparent errors in addition of lump-sum and extended prices will be corrected.

(b) For the purpose of bid evaluation, the government will proceed on the assumption that the bidder intends his bid to be evaluated on basis of the unit prices, the totals arrived at by resolution of arithmetic discrepancies as provided above and the bid will be so reflected on the abstract of bids.

(c) These correction procedures shall not be used to resolve any ambiguity concerning which bid is low.

2. If a modification to a bid based on unit prices is submitted, which provides for a lump sum adjustment to the total estimated cost, the application of the lump sum adjustment to each unit price in the bid schedule must be stated. If it is not stated, the bidder agrees that the lump sum adjustment shall be applied on a pro rata basis to every unit price in the bid schedule.

3. Bidders must bid on all items.

4. Responders are advised that this requirement may be delayed, cancelled or revised at any time during the solicitation, selection, evaluation, negotiation and/or final award process based on decisions related to DOD changes in force structure and disposition of the Armed Forces.

6. This requirement will result in a base period with two (2) option periods, not to exceed 36 months from the date of the contract award. The base period will consist of 365 days, option period one (1) will consist of 365 days and option period two (2) will consist of 365 days.

52.217-0005 M001 EVALUATION OF OPTIONS (JUL 1990)

This contract contains an Economic Price Adjustment Provision Clause under which the price determination of the option years beyond year one is standardized, therefore, evaluation of the options is based upon the evaluation of the base year. Evaluation of options will not obligate the Government to exercise the option(s).
